Subject: Oil Eater Concentrate Vehicle Cleaner and Concentrate Foam
Applicator

To Whom It May Concern:

At 1-800-GOT-JUNK? keeping our trucks clean is both a challenge and critically important to our operation as it is one of our four Quality Focus Areas.

I have been using the Oil Eater Concentrate soap and the foam applicator for several months now and I am very impressed with this product.

It is very easy to apply the concentrate soap using the foam applicator. After a simple one time setup, the foam applicator automatically mixes the concentrate and water in the correct proportions. My team can spray the soap onto the trucks, lightly scrub the trucks with a brush, rinse and the truck is clean. All of this can be completed within 10 minutes per truck.

In addition to its ability to clean my trucks quickly and easily, I am also very excited that this product is environmentally friendly.

Regards,

Craig Sexton
