Your UPS is not easy to get off.

I found your product when I started my housekeeping business in 1998 ish. I have used it for cleaning and stain removal since. I have gotten all my clients and friends using this product. Most people don't know how well it cleans, unless they are looking for an oil de-greaser. It works wonderful on shower soap scum build up, along with many other uses. I'm sure you already know this. I just felt the need to share. Thank you Tara
